

The first MFP with ScannX software designed for libraries.

Powered by ScannX's award winning software, chosen by thousands of libraries for its ease-of-use, innovative features, security, and reliability.

- Auto crop, auto straighten auto orient the image for perfect copies every time. No more crooked copies!
- Convert paper documents to digital files in up to 3 formats at once. No extra copying required.
- Send documents to multiple destinations without rescanning or re-copying
- Send copies to your smartphone or tablet
- Add optional translation, hand-writing recognition, and plagiarism detection services
- Reorder, insert and delete scanned pages on the fly
- Print files from your USB drive, and cloud storage accounts

Connect a ScannX book scanner into the MFP via USB, and scan!
