Advanced Overhead Scanner for Books and Documents

Exceptional image quality, with intuitive software, at an attractive price

The ScannX Overhead Scanner 2500 combines the CZUR ET25 overhead scanner exclusively from ScannX with the award winning Book ScanCenter® software to deliver a powerful, yet affordable, book scanning solution for library patrons.

This leading-edge technology reduces book scanning to page turning: it automatically creates flat scans from curved pages, separates the left page from the right page, integrates smart tilt correction and auto-cropping, and removes the user's thumbs from the scan area when holding down the pages of a thick book.

As powerful as it is, this state-of-the-art scanner solution also makes it easy for everyone to use it. Flexible in design from the ground up, it enables users to control the scanner using a touch screen, a hand button, or a foot pedal, while scanning entire pages at the ultra-fast rate of 6 seconds per page - including dual-facing pages of a book or A3-size documents.

Image Quality
The advanced system offers 330 dpi true optical resolution with improved color accuracy, whiter backgrounds and up to 600 dpi interpolated resolution. Image quality controls include brightness, contrast, and color saturation.

Easy-to-Use Feature Rich Controls
The Book ScanCenter Standard Edition software includes output to email, Google Drive, mobile devices, network, print, USB drive, and Wepa. Users may insert missed pages, reorder scanned images, split images horizontally or vertically, zoom images from 50% to 500%, and rotate images right or left. The ScannX software helps you meet your environmental goals by allowing your scans to be sent to or stored on a variety of media, rather than printing.

Add-on options include scanning to Box, Dropbox, Office 365, OneDrive, and print from cloud, USB drive, and mobile device. Software translation services include automatically converting scanned pages into any one of the 60+ languages for a fixed fee per year for unlimited use.

Integrated OCR
The ScannX Overhead Book Scanner is integrated with the ABBYY FineReader Engine for unmatched accuracy. ABBYY's multi-lingual document recognition engine automatically detects English, French, Italian, German, and Spanish languages. For an additional fee, the software can be upgraded to recognize over 180 languages.

Security Stand
The ScannX Overhead Scanner ships with a custom security stand manufactured by ScannX to protect the scanner from theft in high-traffic areas, while offering a more durable scanning surface. It is easily installed in minutes, fits the scanner perfectly, and can be attached to a table for further protection.

KEY FEATURES

- 330 dpi true optical resolution, up to 600 dpi resolution
- Ultra-fast scans in 6 seconds per page, with no pre-scan required
- A unique hardware design that captures face-up books up to 17" wide x 11" tall x 3" thick
- Advanced page-flattening algorithms that transform pixels from a 3D, curved surface to a completely flat undistorted image
- Innovative ThumbErase™ automatic digital thumb removal technology for exceptional results
- Integrated GlareFree™ side lighting delivers blotch-free scans of glossy documents
- ABBYY FineReader technology for unmatched OCR accuracy, with automatic conversion to searchable PDF, Word, MP3, JPEG, TIFF, and PNG file formats
- Integrates with coin, bill, and credit card devices for cost recovery; add-on options for faxing and digital translations
- U.S. based support team with permission based remote access to diagnose system issues quickly and accurately.

Accessibility

ScannX designs its products with accessibility built-in from the ground up. The touchscreen interface is designed for ultimate ease-of-use, and includes contrast and magnifying tools for the visually impaired. Audio narration is built-in. And the selection of scan controls includes a simple touch on the display, a desktop button for the hand, or a foot pedal to keep the hands free.

Scannalytics®

Scannalytics tracks usage statistics, enables features remotely, and distributes updates. Tracks revenue generated for chargeable services such as printing and faxing. No user credentials and scanned content is saved.

Supported Billing Systems

The ScannX Overhead Book Scanner supports ITC and Jamex coin and debit/credit card systems, and the VP6300 credit card terminal. It also works with leading print management vending systems including Pharos, EnvisionWare, and P-Counter.

U.S. based ScannXtra Care support

The ScannX Overhead Book Scanner hardware is backed by a one-year manufacturer's warranty that can be upgraded and extended through ScannXtra Care® for up to five years. The system is supported by ScannX technical support and customer service teams based in the U.S. With your permission, they can remote into your system to diagnose the issue, reconfigure any software issues, and issue a next day RMA replacement for any hardware defects under the ScannXtra Care warranty premium coverage option.

Scanner Specifications

- Hardware included: Scanner, side lights, USB cable, power adapter, hand button, foot pedal
- Scan speed:6 seconds/page in Book mode; 3 seconds per A4 document in Document mode. No pre-scan required
- Scanning technology: Overhead, CMOS-based single-pass scan
- Light source: Integrated LED illumination, with integrated overhead lighting and side lights for glare reduction
- Optical resolution; 25 megapixels, at 330 dpi; fixed focus
- Output resolutions; 75, 100, 150, 200, 300, 400, and 600 dpi; 24-bit color
- Maximum scanning area. Documents: 18.89 x 14.17 in per page
- Maximum scanning area. Books: 17" x11"

- Interface: USB 2.0 high-speed
- Scanning control: Touchscreen software control; hardware control using device button, hand button, or foot pedal
- Power requirements: 100VAC to 240VAC, 50Hz/60Hz
- Dimensions: 8.26 in. (210 mm) wide x 6.14 in. (156 mm) deep X 15.08 in. (383 mm) high
- Weight: 6.6 lbs. (3 kg)

Software Specifications

- Intuitive and friendly touchscreen interface guides patrons through the scanning process
- Automatic image correction: Cropping, straightening, orienting for text-based images
- ABBYY FineReader Technology for unmatched OCR accuracy
- Converts text into PDF, searchable PDF, MS-Word formats
- Automatically create MP3 file formats from text for instant audiobooks
- Converts photos into JPEG, TIFF, and PNG formats
- Image editing tools: Zoom, crop, rotate, split horizontal/vertical, fit-to-page
- Advanced security with CAS and 2-factor authentication options
- Accessibility tools for the visually impaired, including audio narration, text magnifier, high contrast
- Local language support in English, French, Italian, German, and Spanish

Security Stand Specifications

- Secures the ScannX Overhead Book Scanner in public settings
- Features an integrated loop to fasten the stand to a table
- Installs easily in minutes with no extra tools required
- Offers heavy-duty steel construction with matte-black powder coating
- Dimensions & weight: 21" x 22" x 1,75", 6.4 lbs.

PC Recommended Specifications

- Intel i5-8500 Processor, 9MB Cache, up to 4.1 GHz.
- Win 10 Pro or Enterprise or later, 64 bit
- 21" FHD (1920 x 1080) IPS touchscreen 250 nits
- 8GB DDR4, 2666MHz SoDiMM
- 500GB HDD, recommended Min 128GB SSD
- 1 RJ45 Ethernet Port
