

The ScannX Software and Cloud Services Advantage

- Recognized for best user experience by MLA for last 7 consecutive years
- Almost 200 million pages scanned by library patrons and staff
- Over 3,000 systems sold and supported in the U.S and Canada
- Reduces print by 96%; saving paper and toner costs, and trees
- Integrates with popular coin, bill, and credit card devices

Book ScanCenter 6.0 Standard Edition Software:

- Easy-To-Use touchscreen interface guides user through the scanning process
- Auto crop, auto-straighten and auto-orient text-based images
- Powered by ABBYY's FineReader Engine for unmatched OCR accuracy - **NEW v12 Upgrade!**
- Fast - No post processing required. Scans one page and OCRs the previous page simultaneously.
- Send scanned files to email, USB drive, Google Drive, mobile devices, network folders, Wēpa, FamilySearch, and printer.
- Converts text into PDF, PDF/A, searchable PDF, Word, and MP3 file formats
- Converts photos into JPEG, TIFF and PNG formats
- Zoom, crop, rotate; split horizontal/vertical, and fit-to-page image editing tools
- Protects confidentiality by not saving scanned content or email addresses
- Advanced security with CAS and 2-Factor Authentication
- Accessibility tools for visually impaired including audio narration, text magnifier, and high contrast
- Supports up to 3 simultaneously ScannX-certified scanners from Fujitsu, Xerox and ScannX
- UI localized into English, French, Italian, German, Spanish and Russian
- ScannXtra Care optional warranties protect your software investment for up to 5 years with software updates, upgrades, technical support, and access to ScannX Cloud Services
