

Zeutschel Chrome Comfort

Low-cost, professional archiving in an all-in-one system

Professional, flexible scanner to tackle your most demanding digitization projects.

The Zeutschel Chrome Comfort is recognized for both its high quality and ease of use. This user-friendly overhead scanner is approachable for new users, sophisticated for advanced users, and gentle on the books it scans.

ScannX and Zeutschel: A Powerful Pairing

This solution combines the uncompromising quality of the Zeutschel overhead scanners with the intuitive ScannX software. With its large friendly buttons, the ScannX software guides the user through the scan process including choosing file formats, scan quality, color depth, file naming, and destinations. A headset jack also helps visually-impaired patrons through the scanning process, and outputs their scan as an audio file.

Keep Your Library Green

The system also helps you meet your environmental goals by allowing your scans to be sent to or stored on a variety of media, rather than printing. The Book ScanCenter Standard Edition software includes output to email, Google Drive, mobile devices, network, print, USB drive, and Wepa. Add-on options include Article Exchange, Box, Dropbox, fax, ILLiad, Odyssey, Office 365, OneDrive, print from cloud or USB drive, print from mobile device, Tipasa, and WorldShare ILL. Translation into multiple languages is also available.

Scannalytics®

Scannalytics tracks usage statistics, enables features remotely, and distributes updates. IT and Accounting departments can use these reports to manage and optimize asset utilization and department chargeback fees.

Unmatched OCR Accuracy

The Zeutschel Chrome Comfort is integrated with the ABBYY FineReader Engine for unmatched accuracy. ABBYY's multi-lingual document recognition engine automatically detects English, French, Italian, German, and Spanish languages.

Support Options

This unit is supported by the ScannX U.S.-based technical support and customer service teams. ScannXtra Care® is also available for customers who want advanced insights into system usage and the ability to remotely manage their ScannX scanners. The solution also includes on-site installation, calibration, and maintenance by a certified technician when required.

Supported Payment Systems

The Book ScanCenter supports ITC and Jamex coin, bill, and debit/credit card systems. It also works with leading print management vending systems including Pharos, EnvisionWare, and P-Counter. ScannX systems also support card systems from Blackboard and CBORD.

KEY FEATURES

- 25" x 18.1" scan area (A2)
- Up to 600 ppi color
- Perfect Book software to straighten text and perform thumb removal
- ABBYY FineReader Technology for unmatched OCR accuracy
