The Affordable, Easy-to-Use, Self-Service Book Scanning Solution

The library industry's most powerful and accessible self-service book scanner designed with affordability in mind.

The Book ScanCenter is comprised of an All-In-One 15" or 23" touchscreen PC preloaded with Scannx software and connected to an 11" x 17" book-edge scanner. It is the choice of libraries because its large friendly buttons guide the user through the scan process from choosing file formats, to scan quality, color depth, file naming, and destinations. The home screen also provides contrast and magnifying tools for the visually impaired.

Touchscreen scanning is provided to these destinations:

Standard:
- Email
- FamilySearch
- Google Drive
- Mobile Devices
- Network
- Print
- USB Drive
- Wēpa

Optional:
- Article Exchange
- Box
- Dropbox
- Fax
- ILLiad
- Odyssey
- Office 365
- OneDrive
- Tipasa
- WorldShare ILL

Scannalytics®

The solution is also integrated with cloud-based Scannalytics reporting, which provides a look at destination use and volume of scanned pages over time. These reports can be configured for weekly, bi-weekly, and monthly delivery to your email.

Unmatched OCR Accuracy

The Book ScanCenter is integrated with the ABBYY Fine-Reader Engine for unmatched optical character recognition (OCR) accuracy. ABBYY's multi-lingual document recognition engine automatically detects English, French, Italian, German, and Spanish languages. An optional OCR pack allows for detecting up to 189 languages.

Translation Services

Translation Services, optional at a fixed fee per year for unlimited use, enable users to scan a document and have the text instantly translated into any of 60+ different languages. The original and translated documents, stored as Word files, can be sent via email or stored to USB drive, Network folder, Google Drive, Box, Dropbox, Office 365, and OneDrive destinations.

Reliability

The Book ScanCenter hardware is backed by a one-year Manufacturer's Warranty that can be upgraded and extended through ScannXtra Care® for up to five years. The unit is supported by Scannx technical support and customer service teams in the U.S.

Supported Payment Systems

The Book ScanCenter supports ITC and Jamex* coin, bill, and debit/credit card systems. It also works with leading print management vending systems including GoPrint, Pharos, and P-Counter. Scannx systems also support card systems from Blackboard and CBORD.

*compatible with Jamex 6557 coin/bill box products shipped after 4/1/14.
