

## Scannx Book ScanCenter Flexi

### Large format book-edge scanning at an extremely affordable price

The Scannx Book ScanCenter Flexi is the industry's most affordable, easy-to-use, large format book scanning solution for library patrons and staff.

The patented design of the Book ScanCenter Flexi protects the spine of the book from damage to extend its life. The book page lies flat on the glass, and the full image of the page is captured without distortion. It automatically crops, straightens and orients each page.

The system also protects privacy and confidentiality by only saving the scanning statistics and not any identifiable session information. Users can also password protect any scanned document and an additional authentication module can prevent anonymous emails from being distributed.

Touchscreen scanning is provided to:

- Dropbox
- Email
- Fax
- FTP
- Google Drive
- ILLiad
- Mobile devices
- Network folders
- OCLC Article Exchange
- Odyssey
- Printers
- USB Drives

### Scannalytics®

Scannalytics tracks usage statistics, enables features remotely, and distributes updates. IT and Accounting departments can use these reports to manage and optimize asset utilization and department chargeback fees.

### Unmatched Accuracy

The Book ScanCenter Flexi is integrated with the ABBYY FineReader Engine for unmatched accuracy. ABBYY's multilingual document recognition engine automatically detects English, French, Italian, German, and Spanish languages.

The home screen also provides contrast and magnifying tools for the visually impaired.

### Supported Billing Systems

The Book ScanCenter supports ITC and Jamex coin and debit card systems and major credit cards. It also works with leading print management vending systems including Pharos, EnvisionWare, and P-Counter. Scannx systems also support card systems from Blackboard and CBORD.

### KEY FEATURES

- Connects to any Windows 8.1 or Windows 10 PC with standard or touchscreen monitor
- Converts scanned images to PDF, searchable PDF, Word, JPEG, TIFF, and PNG file formats
- Sends scanned files to mobile devices, fax, USB drive, Google Drive, network folders, FTP, printer, or email
- Patented design captures full pages of text without distortion
- Pages up to 11x17" can lie flat on glass to protect book spine
- Powered by ABBYY FineReader Technology for unmatched OCR
- Easy-to-use software available in English, French, Italian, German, Spanish, and Russian
- Supports selected ACDI, ITC, and Jamex payment systems

## Specifications

Throughput Speed	4.5 sec. Color, B/W at 200/300 DPI 6.0 sec. Color, B/W at 200/300 DPI
Scanning Type	Flatbed, ADF (optional)
Scanning Technology	CCD
Light Source	LED
Color mode	48bits input 24bits output
Grayscale mode	16bits input 8bits output
Recommended Daily Volume	5000 pages
Optical Resolution	600 DPI
Output Resolutions	75, 100, 150, 200, 300, 400, and 600 DPI
Flatbed Maximum	11.7 x 17 in (300 x 432 mm)
Interface	USB 2.0
Power Consumption	< 38.4 W
Power Consumption Operation	Operation: < 40 W Standby: < 15 W Power saving: < 5 W
Electrical Requirements	Input: 100-240 VAC, 50/60 Hz Output: 24V, 2.0A
Dimensions (W x D x H)	25.4x16.9x5.3 in (645x428x135 mm)
Weight	16.8 lbs. (7.6 kg)
