

Scannx Photo ScanCenter

Quickly and easily turn a shoebox of photos into digital images

Upload photos to the cloud with self-service photo scanning and touch-screen simplicity.

Send Your Photos to the Cloud

The Scannx Photo ScanCenter is comprised of a Scannx 15" touchscreen PC, a Kodak photo scanner and the Scannx ScanCenter software. It is the industry's most powerful, easy-to-use, self-service photo scanning solution for library patrons.

Touchscreen scanning is provided to:

- Dropbox
- Email
- Fax
- Google Drive
- Mobile devices
- Network folders
- Printers
- USB Drives

Designed with large friendly buttons, the Scannx Photo ScanCenter guides the user through the scan process including choosing the file formats, scan quality, color depth, file naming, and destinations. The system can automatically auto-crop, auto-straighten and auto-orient each photo scanned.

Scannalytics®

Scannalytics tracks usage statistics, enables features remotely, and distributes updates. IT and Accounting departments can use these reports to manage and optimize asset utilization and department chargeback fees.

Unmatched Accuracy

The Book ScanCenter is integrated with the ABBYY FineReader Engine for unmatched accuracy. ABBYY's multi-lingual document recognition engine automatically detects

English, French, Italian, German, and Spanish languages. The home screen also provides contrast and magnifying tools for the visually impaired.

Supported Billing Systems

The Book ScanCenter supports ITC and Jamex coin and debit card systems and major credit cards. It also works with leading print management vending systems including Pharos, EnvisionWare, and P-Counter. Scannx systems also support card systems from Blackboard and CBORD.

Reliability

The Book ScanCenter is backed by a one-year manufacturer's warranty that can be extended through Scannxtra Care for up to five years. The unit is supported by Scannx technical support and customer service teams.
